RECOMMENDATION: Approve and Accept New Donations to the Bess Bower Dunn Museum of Lake County's Collections.

STRATEGIC DIRECTION SUPPORTED: Communication, Education, and Outreach

FINANCIAL DATA: There is no financial impact associated with accepting these donations.

BACKGROUND: The Bess Bower Dunn Museum of Lake County (the "Dunn Museum") "collects material culture representing the people, places, and events of Lake County, Illinois" (Collection Policies, Scope of Collections, p. 4). The majority of the Dunn Museum's historic collections was acquired by the County of Lake from the privately run Lake County Museum of History in 1965 for the purpose of "preserv(ing) and maintain(ing) for future generations the cultural history of Lake County" (County Board Resolution No. 24, dated October 12, 1965). These collections were officially transferred to the Lake County Forest Preserve District in 1989.

The Dunn Museum is frequently offered donations by members of the general public. Each donation is considered against criteria established in the Dunn Museum's approved Collection Policies (the "Collection Policies"). Donations that do not meet these criteria are declined. Since January 2021 the Dunn Museum has received 39 donation inquiries of which 18 were declined.

The 21 donations listed on the attached Exhibit A meet the criteria established in the Collection Policies and have been reviewed, and are being recommended by, the Museum's Collections Committee and the Superintendent of Educational Facilities for acceptance into the Dunn Museum's historic collections. There is adequate space to properly store and care for these items. Under the Collection Policies, the Operations Committee is authorized to accept the donations, because they do not require a purchase of more than \$25,000.00.

REVIEW BY OTHERS: Chief Operations Officer, Director of Finance, Superintendent of Educational Facilities.

Motion to approve and accept New Acquisitions by the Bess Bower Dunn Museum of Lake County's Collections as provided in Exhibit A to staff's August 30, 2021, memorandum.

The Reverend William B. Dodge (1783-1869) of the Millburn Congregational Church was an outspoken abolitionist and leader in Lake County's anti-slavery movement.

The book was found by the donor at a resale shop in Fayetteville, Arkansas where she works. An online search for the names inscribed in the book led her to the Lake County History blog post about Reverend Dodge by Diana Dretske.

The physical sketchbooks are still in use by the artist and couldn't be donated, but select images were scanned in-house by Digitizer Steve Ferrigan to document these recent events.

Beeranthbail is an urban sketcher, which she describes as meaning "I carry a little sketchbook and a compact set of art supplies everywhere I go and document my world one sketch at a time. Sketches are imperfect (and often incomplete) marks on paper that capture a fleeting moment in time." She is an active member of the Urban Sketchers League of Chicago.

Cuba Marsh was purchased beginning in 1976 with significant public support. The Citizens for Conservation were the main proponents of the purchase, which preserved extensive wetlands and adjacent uplands as open space rather than allow its proposed development. Cuba Marsh was named for Cuba Road. In 1978, the preserve was reforested with 80,000 trees (white and red oak, black walnut, and white pine), purchased with money donated by the Citizens for Conservation.

- **St. Therese and Victory Hospital Memorabilia, Circa 1979-2000**

Materials relating to Victory Memorial Hospital and St. Therese Hospital in Waukegan, such as newsletters, special event programs and menus, public newsletters, self-published brief histories, anniversary and commemorative materials.

These materials were selected by the donor while she was serving on the Victory Memorial Centennial committee, “in case anything happened to the hospital's own historical items collection.” The donor worked at St. Therese for about two years before moving to Victory, and was at Victory during the consolidation with St. Therese.

- **Mortgage Title Antioch Township, 1954**

1954 Mortgage title for property in Wedgewood Subdivision on Loon Lake, Antioch, Township sold to Susan Webb from Robert and Irene Gallimore. The title includes a racial restrictive covenant clause: “premises shall never be sold, leased or transferred to or occupied by persons of the African or Negro, Japanese or Chinese Races or their descendants.” Restrictive covenants, which prohibited the sale or rental of property to African Americans, Asian Americans and Jews were used in the United States from the late 1920s until the Housing Rights Act was passed by the Congress in 1968, outlawing discrimination on the basis of race or ethnicity

There are only a few examples in the museum's collection (including the new mortgage title donation) of this practice. The majority of title deeds in our collection pre-date the use of restrictive covenants. Having these documents in our collection is an important reminder of how restrictions were legally included in some Lake County developments.

The School was located north of Millburn. Its last location was northwest of the corner of today's Route 45 and 173. In 1964, Hickory School closed its doors. It was noted in the *News Sun* as being the last one room school in the county. When the school closed, Eva Edwards Alling (1891-1968)—from the school's class of 1905—gave the ledger to the donor's father, Marc Warren Edwards.

The museum has a 1918 Hickory School history that was part of Bess Dunn's collection.

- **Lake County Fair Placards with Bonner Cattle Names and Lineage**
Three hand-painted and stenciled Lake County Fair cattle signs, found in a barn at Bonner Heritage Farm. The placards were made in the 1960s for cows raised on Bonner Farm by John Bonner and were displayed while the cattle were on exhibition at the County Fair. The signs connect to County Fair ribbons in the collection that were awarded to the cows named on the signs.
