**RECOMMENDATION:** Recommend approval of a Resolution awarding a Contract for the Wetland Invasive Plant Control 2016 Lakewood Forest Preserve to Integrated Lakes Management, Inc., Waukegan, Illinois, in the Contract Price of \$30,041.00.

**STRATEGIC DIRECTION SUPPORTED:** Conservation

**FINANCIAL DATA:** This item was approved as part of the adopted FY2015/2016 Budget in the amount of \$40,000.00. The actual cost of \$30,041.00 will be charged to Farmland Management Fund (28644000-705100-62803).

**BACKGROUND:** The 74-acre Wauconda Bog contains high-quality bog habitat surrounded by sedge meadow and shrubland communities, and supports habitat for six state-threatened and endangered plant species and two state-threatened bird species. This wetland complex has been identified as an Illinois Natural Areas Inventory site and is a National Landmark. This portion of Lakewood Forest Preserve was dedicated as a Nature Preserve by the Illinois Nature Preserves Commission in 1970. This project will include restoration of Wauconda Bog within Lakewood Forest Preserve and is part of ongoing habitat restoration, started in 2008, to control invasive wetland plants from a 60-acre nature preserve.

The goal is to reduce the abundance of invasive plants and provide new areas of expansion for native species, including state-threatened and endangered species. Work includes selective foliar wick and spray application of herbicide to hybrid cattails, common reed and reed canary grass during the growing season.

The project was advertised on December 12, 2015 and three bids were received. A summary of the bids received is listed below:

	<u><b>TOTAL BID</b></u>
Integrated Lakes Management, Inc., Waukegan, Illinois	\$30,041.00
