Agenda Item# 9.11

RECOMMENDATION: Recommend approval of a Resolution awarding a Contract for the Woody Invasive Plant Control Phase 5 Clearing at Middlefork Savanna Forest Preserve to Homer Tree Service, Inc., Lockport, Illinois, in the Contract Price of \$128,940.00.

STRATEGIC DIRECTION SUPPORTED: Conservation

FINANCIAL DATA: This project is being partially funded by the Preservation Foundation of Lake County Forest Preserves in the amount of \$95,000.00. The remaining \$33,940.00 will be charged to the approved FY 2016/17 Farmland Management Budget for Site Specific Invasive Species Management (28644000-705100-62803).

BACKGROUND: Eradication of buckthorn from District land in conjunction with reducing buckthorn by 50% overall in the county, is one of the five conservation goals identified in the Board's adopted Strategic Plan. The area surrounding and including Middlefork Savanna was chosen to serve as the pilot project for this buckthorn eradication initiative. A private donor interested in this project made a large contribution to the Preservation Foundation with the understanding that the donation would be put toward this project.

This contract is to eradicate buckthorn and selectively thin other invasive species from the last remaining un-cleared section of Middlefork Savanna Forest Preserve. In total, the project area encompasses 61.4 acres of degraded marsh, sedge meadow, prairie, and savanna habitats. Work will include mechanical and hand-cutting (e.g., chain saws, hand saws, tracked skid-loaders, feller bunchers), brush disposal via brush pile burning, selective wick herbicide application to cut stumps, and follow-up wick foliar application of resprouts.

The project was advertised on August 2, 2016 and six (6) bids were received. A summary of the bids received is listed below:

	<u>TOTAL BID</u>
Homer Tree Service, Inc., Lockport, Illinois	\$128,940.00
