

IN THE AGE OF THE SMARTPHONE,
are maps obsolete? Punch an address in an
app, and a disembodied voice delivers turn-by-
turn directions. But throughout history, maps
have been about so much more than getting
from point A to point B.

There is magic in maps. A map can place you
in the depths of the ocean or on the surface
of another planet. A map can take you back
in time. It can show you both where you have
been and where you are going.

In 2016, the map of the Preservation
Foundation's impact spans all of Lake County,
even crossing Forest Preserve boundaries. On
behalf of the Preservation Foundation board
and staff, thank you to the hundreds of donors
who helped us chart our course, expand our
reach, and made our region better through
their giving in 2016.

The cover image is an 1861 plat map of Lake County and a beautiful
example of 19th century map making. Until recently, this gem from the
Bess Bower Dunn Museum's collection was inaccessible to the public,
due to its fragile condition. A grant from the Signal Hill Daughters of the
American Revolution funded conservation of the map, which can now be
exhibited in the museum's new home in Libertyville.

GRANT WOODS

PRIVATE DONATION ACCELERATES HABITAT RESTORATION

A private donation of more than \$600,000 kick-started a multi-year restoration of our highest priority areas in this 1,200-acre preserve. In 2016, 68 acres were cleared of invasive species and reseeded with native plants.

LAKWOOD

MAKING HISTORY

One of the largest land acquisitions in Forest Preserve history also received the largest private donation. A \$1,085,000 grant from Illinois Clean Energy Community Foundation supported the purchase and initial restoration of the Cuneo property, a 371-acre addition to Lakewood. When fully restored, the site will be a complex of prairie, wet prairie, wetlands, and open water.

GRASSY LAKE

ELIZABETH AND JAMES BRAMSEN CHALLENGE

Private donations are funding the final phase of habitat restoration on the Hurd property, a 110-acre expansion of Grassy Lake Forest Preserve. Elizabeth and James Bramsen offered a generous challenge grant to meet our fundraising goal by the end of 2017.

MIDDLEFORK SAVANNA

BRIDGING COMMUNITIES

Construction has begun on a pedestrian bridge over the Metra tracks, connecting Middlefork Savanna to homes and businesses to the west. Donors made this critical public access possible, including a \$2 million federal grant and \$325,000 in donations by the City of Lake Forest, Lake Forest Academy, Lake Forest Bank & Trust, Lake Forest Open Lands Association, and Richard and Elizabeth Uihlein.

Grant Woods is the only known location in Lake County of the very rare Carolina vetch. It continues to thrive there thanks to habitat restoration and management.

The Forest Preserves are living laboratories for our Science Explorers in Nature.

The 371-acre Cuneo property is an important addition to the wetlands of the larger Lakewood complex, which includes Broberg Marsh, the McLean Habitat Restoration area, and others.

Northwestern Medicine was our first Summer Camp sponsor in 2016, reaching more than 400 campers all around Lake County.

The Middlefork Bridge is being constructed within the footprint of the historic Armour Bridge, which once spanned the railroad tracks. Remnants of the old structure, seen in this construction photo, will remain alongside the new bridge.

MAPPING OUR IMPACT: THE ANNUAL FUND

The cost of administration of the Preservation Foundation is covered by the Forest Preserves. This means that, unlike most charities, 95 cents of every dollar raised goes directly to programs and impact on the ground.

It also means that your Annual Fund donation, which might typically pay salaries or keep the lights on, can be used to help the Forest Preserves do more. In 2016, the Preservation Foundation made five grants from the Annual Fund, totalling \$93,157.

IMPACT OF ANNUAL FUND GRANTS

5,000 attendees
reached at **CIVIL WAR DAYS**

48 locations sampled
for water quality in the
Des Plaines River Watershed

4 rare wildlife species
introduced on
Forest Preserve lands

3 volunteer restoration
crews equipped with
chainsaws, lopping shears,
and **saws.**
