8.0 OLD BUSINESS

8.1 Policy Direction requested on whether to consider expanded trail hours

As was the policy direction of the Committee during their August 25, 2014 meeting regarding extending trail hours to accommodate bicycle commuters, Director Tully reported his findings on what policies other forest preserve and park districts have in place for trail use. Discussion ensued regarding modifications to the existing facilities (e.g., solar-powered gates that open automatically via timers, lighted parking lots), potential reorganization of Operations and Public Safety staff hours, the costs and risks associated with extending the hours for trail access. Mr. Tully reminded the Committee that, even if

the District can make trails and parking lots safer for night use, consideration must be given to the multiple road crossings (along trail systems such as the Des Plaines River Trail and Millennium Trail), over which the District has no jurisdiction. There was also a question of how the District would enforce opening trails to only commuters with appropriate lighting on their bikes, when there are birders, walkers/hikers, cross-country skiers, and cyclists without the required bicycle lighting who would likely take advantage of the open trails at night.

Public comment in favor of changing District policy to extend trail hours was from the following:

- Ed Barsottti, *League of Illinois Bicyclists*
- Norm Hansen
- Chris Barouka
- Evan Larsson
- Steve Fluhr, M&M Cyclery, Mundelein, Illinois

The discussion continued, and it was the consensus of the Committee for Mr. Tully to further investigate the potential impacts to staffing and the costs involved with changing the hours of Operation from the current 6:30a.m. - Sunset to 5:30a.m. - ½ hour after sunset or 6:00 p.m., whichever is latest. The District has approximately 65 gates throughout the forest preserves that are not equipped with solar power. Mr. Tully will also provide a proposed time and cost schedule for phasing in solar gates at those locations. Director of Administration, Mary Kann, will contact PDRMA regarding the potential risks associated with extending the trail hours, and work with Mr. Tully regarding staffing issues. Mr. Tully will return with a report to help Committee make an informed decision.
